Over Doctor's Surgery

New extension and re-furbishment works

PROJECT UPDATE

To all Over Doctor's Surgery staff and patients,

We are now into the ninth week of our works here in Over. As the programme progresses, we hope you will notice and benefit from the additions and alterations we have been challenged with to deliver to your surgery.

After the last couple of week's on site, you will have hopefully noticed we have achieved the following:

- **Opened the new entrance**
- **Closed off the old entrance and formed our new compound**
- **Removed all vegetation in footprint of extension**
- **Commenced groundworks (inc. works involved with relocating incoming BT supply)**

Over the next couple of weeks, our focus will be on:

- **Relocating the incoming BT supply so it does not clash with the new foundations**
- **Completing foundations and drainage works within footprint of the extension**
- **Commencing blockwork up to new finished floor level**

If you have any concerns or questions about the works we are carrying out please contact one of our site management team and we will be more than happy to answer and resolve your queries. Finally we would like to thank you for your patience and cooperation during our time here, it is greatly appreciated.
