

## Over Doctor's Surgery New extension and re- furbishment works

### PROJECT UPDATE

**To all Over Doctor's Surgery staff and patients,**

We are now into the eleventh week of our works here in Over. As the programme progresses, we hope you will notice and benefit from the additions and alterations we have been challenged with to deliver to your surgery.

After the last couple of week's on site, you will have hopefully noticed we have achieved the following:

**Relocated BT chamber and ducting to avoid our new foundations**

**Completed BT switchover onto new route**

**Formed the new foundations ready for blockwork**

**Completed concrete pour to new foundations**

Over the next couple of weeks, our focus will be on:

**Completing blockwork up to finished floor level**

**Installing new drainage**

**Completing block and beam flooring install**

**Commence construction of new blockwork walls within new toilet area**

If you have any concerns or questions about the works we are carrying out please contact one of our site management team and we will be more than happy to answer and resolve your queries.

Finally we would like to thank you for your patience and cooperation during our time here, it is greatly appreciated.
